Composite Fencing Warranty

Introduction:

Paving Stones Direct is dedicated to providing quality composite fencing products to our customers. We stand by the durability and reliability of our products, and as such, we offer a warranty to ensure your peace of mind.

Warranty Length:

- 5 years for standard (hollow) models

Paving Stones Direct, as the supplier, will replace any composite product used in the proper application if it experiences issues due to rotting such as structural deterioration or fungal decay as an example. Rotting caused by insect or pest infestation is not covered.

This replacement coverage is valid within 5 years from the purchase date. Please note that this warranty does not cover installation costs, debris/waste removal, re-installation, colour variations, or fading. Paving Stones Direct's sole obligation is limited to replacing composite fencing or providing the relevant refund subject to when the claim was made, and we hold no further obligation or liability beyond what is stated herein.

Failure to adhere to the provided product restrictions or comply with local building codes and regulations will result in the nullification of the warranty. Paving Stones Direct reserves the right to inspect materials and investigate claims.

All construction involving composite fencing must adhere to local zoning and building codes.

Transferability:

This warranty is provided exclusively to the original purchaser of the composite fencing or **automatically transfers to the end customer** if purchased by a **3rd party** as part of a project for a homeowner or property owner. In such cases, the 3rd party must provide proof of purchase along with documentation linking the fencing to the final owner, such as an invoice or contract.

Should the homeowner sell their property, the warranty is **non-transferable** and will not be valid for the new owner unless explicitly stated otherwise in writing by Paving Stones Direct.

Maintenance Requirements:

To ensure the longevity and optimal performance of the composite fencing, regular maintenance as recommended by Paving Stones Direct is essential. This warranty remains valid only if the Fencing has been properly maintained in accordance with our provided guidelines. Failure to adhere to these maintenance recommendations may result in the nullification of the warranty.
